Poblacion, Liloan Cebu

EDUCATION

Bachelor of Science in Information Technology

Graduated 2025-2026

SKILL

I specialize in building modern and responsive web applications using React, TailwindCSS, and JavaScript. I also have experience in backend development with Node.js, Express.js, PHP, and MySQL. I use Git, GitHub, and Vite to manage and optimize my projects efficiently.

ABOUT ME

I'm Angelu L. Banogbanog, 23 years old, currently studying BS Information Technology. I am passionate about web development and enjoy creating interactive and modern web experiences that blend creativity with functionality.

My goal is to craft seamless user experiences and write clean, efficient code that transforms ideas into reality through technology.
