SUMMARY

Results-oriented Full-Stack Developer with a proven ability to build and optimize scalable web applications. Skilled in front-end and back-end technologies, database management, and API integration. Seeking a challenging role to leverage technical expertise and deliver innovative digital solutions.

PROJECTS

Portfolio Website

- Built a personal portfolio using React and TailwindCSS to showcase projects, skills, and background.

Hurb E-Commerce Website

- Developed a full-stack e-commerce platform with dynamic product listings, user authentication (JWT), and MySQL database integration.

Memory Timeline Website

- A personal web application that allows users to upload photos and videos, add captions or stories, and organize them chronologically to preserve and share special memories with loved ones. Built with React, TailwindCSS, JavaScript, and Framer Motion for smooth animations and a responsive user experience.
